## TERM OF REFERENCE

### Leader Base AIESEC in Untan

#### A. Leader Base AIESEC in Untan

Leader Base is one of the events at Aktjaya Assemble. This event consists of sharing sessions and talk shows. The concept of Leader Base is excepted from the idea of softball game, which consists of bases that we must pass to win. Just like that, each episode of Leader Base is the bases for delegates to become a leader. The purpose of this event is to provide young people with extensive knowledge about leadership and to increase collaboration with any organization or community that collaborates with AIESEC in Untan in this event.

As a player in a team game, everyone has their role and is tasked with leading themselves. In working together in a team, many challenges are often present and must be faced for the sustainability of a team. Departing from this, in the session with the theme "YOUth and Your Team" we raised the topic of discussion about "How to Execute the Challenges as a Leader"

The objective of the speakers to this virtual talk are:

- To increase participants understanding of the importance of facing challenges in our lives
- To convey to participants what steps we should take when facing problems in the team
- To increase participants understanding of how to make a project sustainable

#### B. Speaker Profile

By the explanation that has been stated in the previous chapter, we found out Mrs. Fithriyyah Iskandar is suitable to be our speaker by the experience as Medstud & Youth Activities and Founder Asia- Pacific Climate Project.

We would like Ms. Fithriyyah to share her views on the challenges of working in a team in general. Participants who attend are expected to be inspired by the journey and material presented by Mrs. Fithriyyah.

By the values mentioned earlier, it is indispensable for young people to understand that each of them is a leader and help them become more aware and courageous to develop leadership abilities within themselves.

By the expectation that we already put into AIESEC in Untan hope that Mrs. Fithriyyah will willingly participate and share the impressive knowledge with AIESEC in Untan and Indonesian youth at our Leader Base.

#### C. Target Participant :

100+ Indonesian youths from all around Indonesia.

#### **F. Closing**

This Term of Reference (ToR) is structured as a reference implementation of activities in general. As for the other technical matters that require revision, because of the needs of the effectiveness of activities in order to meet the maximum target of the activities that can make a positive impact on the target group, it will be arranged later.
